TECHNICAL DATA SHEET

MILLCIDE AG-S40

Product Description

Millcide AG-S40 is a specially developed Quaternary ammonium based formulation to control the microbial growth in sugar cane juice.

Application

The tremendous biocide activity of Millcide AG-S40 will minimize sugar inversion and increase mill efficiency. Millcide AG-S40 is fed continuously at three positions on the mill tandem. So that the treated juice circulates to all parts of the mill tandem.

Dosage

Millcide AG-S40 should continuously feed at the rate of 2-5 ppm of cane ground per day.

Specification

Appearance	Colorless liquid
pH	6.0-8.0
specific gravity	0.97-1.0
Active matter	50%

Storage and Handling

The product is stable at ambient temperature. Always keep the container tightly closed when not in use. Store in a cool, dry place. Do not keep in direct sunlight. If it comes in contact with eyes, flush with clean, cold water and get prompt medical attention. For safety practice Gloves and Goggles should be used while handling the product.

For further details see the MSDS.
